

Dear FCC,

I am writing to register my comments concerning the rule changes on broadcast ownership, docket 02-277. To allow further monopoly control of the media, by fewer and fewer, larger and larger corporations is NOT in the interest of the public's right to information! In truth it would only benefit the coffers of the mega-media conglomerates, and would steal the rights of every individual to have access to free and varied information. This would further discard the basic premises that are the foundation of this grand adventure in democracy! Do not change the Broadcast Ownership rules!!!
